

# **Mixermate**

**Turn your taps on with one finger!**

**Mixermate turns your old hard-to-use taps into an easy-to-use single lever mixer tap.**

**Ideal for people with arthritis as the mixermate can be turned on with one finger.**

**The advantage of Mixermate is that you avoid expensive plumbing costs because there is no removing tiles to install your new taps.**

**Mixermate can turn any hot and cold tap into an easy-to-use single lever mixer tap and can be installed in around 1 hour.**

**Turn your old hard-to-use taps into an easy-to-use single lever tap.**

MixerMate taps are ideal for Hospitals, Nursing Homes, Care facilities, Retirement Villages and Private homes. Visit our website to see our full range of taps and devices including Thermostatic Mixing Valves and Thermostatic Showers. These devices are installed to avoid hot water burns as recommended by Occupational Therapists and Architects in the care industry.

- No removing tiles.
- No drilling into walls.
- No more changing washers.
- Cost effective.
- Easy installation.
- Perfect for people with arthritis or low hand function.
- Water saving.
- Australian Made fittings.

Using the existing plumbing, the MixerMate tap simply mounts on top of the wall. Suitable for your:

- Shower
- Bath
- Basin
- Sink
- Laundry

Cover available in White, Ivory, Chrome or Stainless Steel
